Evaluation of Washington State Library's LSTA Five-Year Plan and Implementation Activities

The *Evaluation of Washington State Library's LSTA Five-Year Plan and Implementation Activities* report that follows discusses implementation activities in relation to the LSTA Five-Year Plan at the goal level. The report provides an overview of many of the programs conducted and focuses more closely on the Connectivity program and the SDL program. The two programs were selected for a closer look for three reasons. First, these programs were conducted over several years and were a primary focus for LSTA during that time period. Second, these programs received significant portions of LSTA funding during that time period. Third, these programs had substantial impact on libraries within Washington state.
